# Polishing machine for workshop with variable speed

**# 1550765**

**Polette w/ tapered spindles - Polette 6 NE**

**POLETTE 6 NE WITH VARIABLE SPEED**

POLETTE polishing machines are the result of 100 years experience, in the development and production of grinding- and polishing machines, and are attractive welldesigned machines for professional workshop use.

The slim machine body coupled with the great distance between wheels, gives plenty of space for polsihing on either wheel. The powerful motor unit, single phase or three phase, is totally enclosed with solidly dimensioned stator housing and endshields, and fully protected against dust. The polishing wheels are directly driven on a shaft assembly which is accurately balanced, and mounted in well-protected dust-proof sealed ball bearings, ensuring very low noise and vibrations level.

## Product Specification

| | |
|---|---|
| Rpm | 0-4000 variable |
| Voltage | 1x230V-50 Hz |
| Motor (Watt) | 560 |
| Wheel size, Polishing wheel (ø mm) | 150x20x6 |
| Bench model | 1 |
| Length (mm) | 670 |
| Width (mm) | 450 |
| Height (mm) | 420 |
| Weight | 13 |
