Heavy polishing machine with exhaust for Industry

 # 1022125

POD industrial polishers - POD 10 - 1400/2800

KEF POD 10 GRINDING MACHINE WITH EXHAUST – designed for heavy-duty work! With its solid construction and powerful motor, the POD 10 double-ended grinder from KEF is the perfect grinding machine for those who are looking for a powerful grinder that is capable of handling typical tasks and at the same time helps maintain a healthy working environment by emitting low levels of mechanical and electrical noise. The spindle shafts are precisely placed in well-shielded dustproof ball bearings. KEF POD 10 comes complete with two grinding wheels in closed guards with large adjustable eye shields and heavy cast iron tool rests.

POWERFUL MOTOR The motor in the grinding machine is wound at our own factory in the town of Brovst, North Jutland, which is why we guarantee a quality motor that can operate continuously without needing downtime for cooling. The motor is encapsulated in a strong cast-iron structure that protects it against external impacts. If the grinding machine is used in accordance with the enclosed instructions, we vouch for a machine that will have a very long service life. Therefore, we offer a 5-year warranty on the motor.

BUILT FROM EXPERIENCE KEF has been manufacturing grinding machines for more than 100 years and is famous for its reliability, power, and quality materials. All grinding machines supplied by KEF live up to all safety requirements in accordance with the CE marking and thus are equipped with separate emergency stop devices.

Product Specification

Rpm	1400/2800
Voltage	3x400V-50 Hz
Motor (kW)	1,5/2,0
Motor (HP)	2,0/2,7
Wheel size, Polishing wheel (ø mm)	300x60x32
Number of spindle speeds	2
On Pedestal	1
With exhaust	1
EX – 16 with table and watercup	1
Length (mm)	890
Width (mm)	405
Height (mm)	1229
