Drill Bit Grinders - PSD 5

KEF PSD 5 with drill grinding attachment KEF drill grinding attachments are based on a well-proven grinding method which always results in flawless and accurately ground drill points. KEF attachments are pre-set for grinding twist drills, for drilling in steel and iron, with point angle 116-118 degrees and clearance angle 6-8 degrees. The simplified design ensures that a wide range of different drill sizes can be ground without complicated and time-consuming re-setting. Therefore, also unskilled operators can obtain good results.
